

Penta Group & Comestero Sistemi

The mission of Penta Group is to analyse and to satisfy the specific requests of its customers, carrying out studies, designs and realisations ranging from our standard products up to the supply of components fully accomplished in partnership with the customer. Penta Group is a strategic and essential partner for numerous productive realities. Hood frontals, handles for outdoor equipment, frontal for the cleaning sector, door interlock group for refrigerating appliances, axial fans for the broad casting field: these are some of the solutions designed and produced by Penta Group. Solutions whose applications are mainly in the sectors of household appliances, hobbies, automation, military, gardening, telecommunications, conditioning industry and automotive. Here are some advantages: reduction of production times, knocking down of managerial costs and elimination of subcontracting activities. Dynamism and professionalism are the right mix, making Penta Group and Comestero Sistemi a winning group, able to create added value on which to rely.
